Assessor Comments	Healthy fresh run of 1 mark weaner Steers with the Landfall blood running through them with good conformation, bone, depth of frame and showing good breed traits. These steers are the highest of quality and be assured these are the top of the 2023 drop out of a 700 Cow herd.They would usually be ran on and highly sort after by repeat feedlots. The Steers were yard weaned for approx 5 weeks ago and were all drenched again on assessment. Please note some of the steers have had ringworm and are on clearer side of it now.
