Assessor Comments	A very good line of EU accredited Angus spring drop steer calves, Weaned and vendor bred. Sired by Landfall Keystone through AI and Dollar Angus bulls. Calves are a pleasure to handle, Calves that have plenty of breeding behind them and would grow into very good feeder cattle or have the breeding in them to grow out to bullock weights. There are two calves that have old pink eye scaring and are non detrimental. Calves are the tops of the spring drop with a weight of 304 kg average curfewed weight (290 -350 kg weight range) For 8 -9 months of age.
