	Exceptionally quiet herd and an exceptionally quiet pen of heifers that have had heaps of regular human contact. They are regularly move on foot when being moved to new pastures.		
Handled With	On foot , Vehicles		
Assessor Comments	A wonderful draft of quality heifers with heaps of depth and muscle. They will make fantastic future breeders or will bolt away in a feedlot because all the background has been done. The Pember cattle are an exceptionally quiet herd and this draft is no exception. They are fed pasture hay through winter while they are on their moms and the herd is regularly moved on foot. They have been yard weaned and then onto irrigated lucerne with heaps of regular human contact.
