Assessor Comments	Buyers, here is your opportunity to secure a very good quality line of Angus cross weaned heifers with the hard work done. The heifers stand on very good bone and show fantastic length and weight for age. They have a live weight range of 300kg to 394kg and an average weight of 335.1kg at assessment. These heifers would be ideally suited to be replacement breeders that would fit into any commercial heard and are ready for the bull of your choice, alternatively the heifers would also be suited to background and grow out to target the trade and heavy feeder markets or take through to slaughter weights. These heifers have had all the hard work done and are powering ahead on the oats, they will continue to power ahead if given the opportunity of good feed. Please note the vendor has also got 2 x 2 deck lines of weaned steers in the same sale.
