A number of these heifers are slightly starry due to lack of handling, with handling will definitely quieten down as they did just with the handling at time of assessment.

Assessor Comments	On offer is a line of good quality young vendor bred Milwillah Angus Blood heifers. Oct/Nov Drop. These young heifers present in store condition, being paddock weaned from the 29/7. With warm weather and improved feed these heifers will leap ahead. Ideal heifers to take on to target feedlot weights or retain as well bred future breeders. A majority of the mob where slightly stirry at assessment but with handling these heifers will quieten down as they showed by the end of assessment. Please note one heifer with a slight white eye caused by pink eye scaring but not deemed to be detrimental.
