	Quiet: 20 head Slightly Stirry: 10 head	Quiet: 15 head Slightly Stirry: 15 head	Temperament not assessed in Paddock

Heifers were handled multiple times; drafting off another mob pre assessment, going through weighing process and being moved between yards for photos. After all this the cattle seemed to settle fairly well once left alone and handled calmly. Heifers showed absolutely no aggression throughout the assessment. They just tended to be a little active and looked for an escape from pressure.

Assessor Comments: On offer is a smart line of 30 heifers that are Pure Bongongo Angus blood. Heifers have had no opportunity to a bull and are in tip top condition for a spring joining or to continue to fatten for the kill. This article presents with a tail removed. Cattle are beginning to clean up in the coat and are on the do. They have an up to date health status and should continue to perform very well given the opportunity. Vendor has very thorough practices as far as fertility and structure throughout the herd and the longevity of these heifers should be accustomed to that. *Buyers please note vendors adjoining neighbour will offer 35 heifers in same sale that have very similar breeding and will be delivered at the same location point. For anymore information please call assessor.
