Assessor Comments Barrajo Pty Ltd offer an even run of 130 Angus heifers. Heifers that are usually grown out to joinable weights and sold as future breeders or backgrounders to feedlots for the domestic supermarkets. However, this years very trying seasonal conditions have not allowed these heifers to reach anywhere near their potential on farm, leaving the door wide open for a buyer to jump on & appreciate some serious compensatory weight gain! Structurally correct females, and designed to finish early & yield strongly. Heifers with a good long barrel & plenty of depth, out of a heavily classed Dunoon Angus blood cow herd, By select high growth/positive carcass Dunoon & Ardrossan Angus Sires. These healthy, young store condition Heifers received their 5in1 booster, a drench & a fly/lice P/O on August 22nd and have kicked away, doing 1-1.5kg/day since! Ideal, large line of 1 mark, well bred Angus heifers, with the added bonus of EU accreditation if you wanted them that way.
