Vendor Comments	Annual sale of weaner steers, have come through a very tight winter with minimal feed and present as all frame ready to bounce ahead.		
	Muscle Score C 70% D 30%		
Temperament	Yards	Crush	Paddock
	Quiet: 99 head Slightly Stirry: 10 head	Quiet: 99 head Slightly Stirry: 10 head	Temperament not assessed in Paddock
	Cattle were a little flighty at the beginning of the assessment but improved and settled down as the assessment progressed. The odd steer jumped around a little on the scales but quickly settled once back in the mob. Cattle have had minimal handling last 6-7 months but are quiet in the paddock and will definitely improve with more handling.		
Handled With	Bikes , Dogs		
Assessor Comments	109 x Angus & Angus Cross Steer Weaners that are just on 12 months old. Seasonal conditions dictate the sale of these steers that would normally be sold at heavier weights but as per majority of herds in surrounding district average weights are 50 - 80kg lighter than normal. Steers present as all frame, carrying no condition enabling the purchaser very quick compensatory weight gains. Majority of steers show some sign of rubbing/ringworm and there is a small amount of warts present on a small percentage. 1 steer has a white birthmark on offside rear leg - see last photo. All eyes are good. Grass Fed Declaration available on request. Well bred calves that will turn inside out with feed & some warmer weather. On previous years these have been sold as heavy feeders and grass fed kill cattle so have the breeding and frame to grow out into export kill bodies. Located right on the edge of Holbrook with easy truck access off the freeway.		
Assessor	Matthew Pitzen (Level 1 Accredited) Phone: 0428 362 030		
Delivery Period	07/09/2024 to 13/09/2024 (7 days)
