Quiet young steers to handle in the yards. All stood very calmly on the scales and exited the crush at a walk. Quiet to handle around the small yards, in close proximity to the handler(s) at all times. Let out into the paddock for photos, still very calm and sensible whilst just having a slightly bigger flight zone.

Assessor Comments

Good line of well bred, quiet natured young steers to take on to some Spring feed. Having been running on the side of a cold, rocky, hilly paddock with only basic, native vegetation to graze. Despite this, they all present in healthy 2 score condition and will kick away with the sunshine if you show them a bit of feed. Out of moderate framed cows, meaning these steers will finish early and yield strongly, making them an ideal shorter term bullock investment. Steers that were very quiet to handle in and around the yards and would be a nice line of steers to appreciate in the front paddock. Buyers please Note. Vendor has another lot of the Autumn drop brothers in same sale (5-6 months older)
