Assessor Comments	Lead draft of nicely bred 'Rhodenvale' weaned Poll Hereford steers presenting in store condition averaged 288kg full at assessment (weighed 240-341kg). These calves are spring drop (Sept - Oct), well grown for age and will steam ahead shown feed. Noted doing cattle these calves are ideal to either background or to grow out to bullocks. You are not buying fat here, steers are well grown & all frame. *Note 3 late marked calves cleaning up out of the bull program in this line.
