	Heifers were forward moving through yards and reacted without much pressure, stood well in the weigh box with most heifers getting agitated through the mouthing process. However once they were let out settled quickly and were very good to handle out in the paddock.	
Handled With	Bikes , Dogs	
Assessor Comments	Assessed is a lovely line of Brangus heifers that would suit as future breeders or Feeders. They were initially purchased out of coastal country and would only need a shot of blood to return that way. Heifers are ready to join to the bull of your choice and produce a quality calf. All one brand and branded # 3's these heifers would have their whole breeding life in front of them or would suit most feedlot specs. Heifers were forward moving in the yards and crush but were very good to handle in the paddock, keeping in mind vendor is over 70 years old and has no trouble handling them with bike and 1 dog. No bulls or stags on the place.
