Assessor Comments	20 VGQ Vendor bred EU ACCREDITED YALGOO/INJEMIRA blood Hereford heifers PTIC TO THE LBW BOOROOMOOKA ANGUS BULLS. Buyers an opportunity to start or add to your existing Hereford herd, These very good quality young females have some of the top genetics from two of the leading Hereford Studs in Australia in YALGOO & INJEMIRA, They have grown out well and have been PTIC to the proven LBW BOOROOMOOKA Angus bulls, Due to commence calving mid to late October potentially over a short period of 47 days. As with most heifers gestational length varies & they could commence earlier or later than predicted. These heifers would be ideal to calve down over the later Spring period and then re-join next year for an Autumn calving period. Please note there is a small percentage of heifers that have scaring in their eyes from blight as weaners & I have deemed in not detrimental to their calving or reproductive potential. PLEASE NOTE VENDOR HAS TWO LOTS IN THIS SALE.
