Vendor Comments

An annual turn off of Heifers that are only for sale due too being surplus to needs. Heifers have grown out well and will make a great future breeding article.

Assessor Comments	An Outstanding line EU Vendor Bred heifers that wouldn't look out of place in any ones front paddock. Heifers are in calf to High indexing Trent Bridge Wagyu bulls and will approximately start calving February. Heifers are from a closed herd which only buy in bulls, the Lindeman herd has a foundation of Quality Te Maina, Glenavon and Clunie Range Angus Genetics. These heifers are very well grown for their age and have all the attributes you want and need in a future breeder, Softness, length and Frame and will be at great calving weights come February. A Great opportunity to secure a good size line of EU eligible Heifers that offer the added advantage of sleep less nights when calving comes around due to the wagyu factor and if your in the F1 breeding program these heifers will offer very saleable F1 progeny as no expense was spared on their sires that had high indexing figures including marble scores 2.1 & 2.5. Highly productive females not to be missed.
