|                               | These cows moved through the yards freely during the assessment process. All cows were mouthed at assessment and a few didn't enjoy this becoming agitated but settled once through the draft and back with the mob.                                                                                                                                                                                                                                                                                                            |                            |                         |      |                |

| Assessor Comments             | 29 NSM Angus cows and calves. These cows are all 4 years old, medium to mostly large frame and have their 3rd calf at foot. These females have enjoyed a great season at 'Oakridge', present in fresh forward condition and are doing a fantastic job on their calves. Calves were sired by high indexing Alloura Angus bulls over a tight 7 week joining. They have all been marked, vaccinated, and are fit to travel. A great opportunity to purchase genuine July/August calving cows entering their most productive years. |                            |                         |      |                |
