Assessor Comments	An outstanding line of first calvers. These young females present in store/forward store condition in what has been a tight season in the district. They are good medium frame females that will continue to mature into top breeders. These females are classed-in and give the purchaser an excellent opportunity to secure an even line of one-mark females. All these heifers calved unassisted to an excellent Angus bull in Landfall momentum S426 a bull with excellent carcass data; Positive fats, big EMA at +9.1 and IMF in the top 4% of the Breed. The calves were born in a tight group and are very even with the heifers doing an excellent job on them. They show good type and temperament and would be an asset to any Angus breeding operation.
