	These cows have been run in a large mob under a rotational grazing system. They are easy to handle and respond very well to pressure. Temperament is classed strongly in the herd and any animals not deemed quiet are sold. These cattle receive ample human interaction due to the nature of the production system (calves tagged at birth, data collection etc).

Notable Traits	Traits 3 Head Eye blemish - not detrimental to performance. 10 Head Minor rubbing - will clean up with spring conditions (approx). 5 Head White markings on udder - pre breed standard (approx).			
Assessor Comments	Scotts Angus are offering 46 x 46 cows and calves. Winter 2019 “Q” drop 5 year old proven breeders. Genuine classed in breeder cows direct the Scotts Angus commercial herd with decades of quality genetics behind them. This line represents the complete group (early calving cows retained) of the later calving and are only being offered due to the tighter winter. A small tail was removed presenting structurally sound cows that offer years of production and performance. Large framed and presenting in store condition carrying big bags of milk and putting everything into their calves. All calves tagged and marked (steers) at birth, allowing simplistic mothering up. All health treatments are up to date and these cows and calves are starting to move with spring upon us. They will complement any herd and would be ideal for anyone looking to get into some top quality Angus genetics. Please note vendor is offering another line of cows and calves and 134 NSM yearling heifers in today's sale also.
