Assessor Comments	Offering 77 mixed sex Angus Cross weaners. The weaners averaged 219.7kg live at assessment after a 7 hour curfew. The weaners will be sold un-weaned and will have been put back on their mothers until delivery. The weaners are all sired by Ardrossan Angus bulls and handled well through the yards considering they have had no prior handling. Overall these weaners are a tidy 2 deck line of organic certified cattle ready to grow out for the potential purchaser. Please note there were a few noted with weeping eyes and one steer noted with an old blight scar. Also the weaners are showing some light rub from potential lice, so may benefit from treatment for the new owner.
