Assessor Comments	15 good quality Angus cross steers presenting in forward store condition that have an estimated average delivery weight of 354kg. Buyers a line of steers that show great growth and weight for age, steers have been on oats for 12 weeks and would be ideal to background to heavy export feeder weights or feed now. Steers are Limousin infused and show the potential to grow into heavy high yielding bullocks at a young age. Please note. 1 steer with small hard lump on jaw (see photos) which isn't affecting his performance as he is the 2nd heaviest steer. Same vendor has sister lot in this sale.
