Assessor Comments	26 - Vendor bred, good quality Angus sired heifers presenting in healthy forward store to fresh condition. Heifers are Not Station Mated, not having had a joining opportunity. The temperament of the heifers is a feature, handling the assessment process without issue, testament to their management practices. Heifers are eligible for Grass fed & Antibiotic Free markets. Please note: 7 heifers were noted as varying degrees of old blue eye scarring & 3 heifers were noted to have a white underline from udder to navel. Sale of heifers presents an opportunity to secure a genuine line of good quality vendor bred Angus heifers, that would be suitable as replacement future breeding females or finish for Angus specific domestic or export markets.
