	Stock handled well throughout the yards under a safe and calm environment. Heifers that were regarded as 'slightly stirry' in crush demonstrated slight discomfort in the crush when being assessed but were quick to settle upon leaving. Two head			

Handled With	were deemed 'stirry' in crush showing discomfort whilst being weighed and once out of the crush they settled however still moved quickly when pressure was applied. Bikes , Dogs , Vehicles
Notable Traits	Traits 2 Head Old ring worm scarring 1 Head Ring worm scarring 1 Head White on udder (udder only)
Assessor Comments	Buyers, on offer is a very well-bred line of Milwillah Blood Angus Heifers. These heifers display all the attributes of quality breeding whereby the vendor places an emphasis on breeding easy care, fertile cattle that produce progeny suitable for either weaner or feeder markets. Sired by the high indexing Milwillah bulls, these heifers highlight the vendors meticulous selection of sires whereby an emphasis is placed on calving ease, high 200/400-day growth and most importantly, phenotype and structural soundness. These heifers have had no opportunity with a bull and are in excellent condition to be joined to the bull of your choice or to continue to fatten onto heavier specifications. Heifers represent an annual sale of surplus to requirement females. These heifers offer a clean bill of health, and a point must be made on their animal husbandry record, including being vaccinated for Pesti Virus. Buyers, please take note of temperament comments and photos of ring worm scarring.
Assessor	Luke Corcoran (Level 3 Accredited) Phone: 0467 488 505
Delivery Period	14/09/2024 to 20/09/2024 (7 days)
