Assessor Comments	Nicely presented line of angus females all weighed out 350-450kg at assessment. They represent the middle group of approximately 300 heifers which were purchased from Carcoar, Yass and Cooma Weaner sales in April with a strong focus on retaining for breeding at selection. This group of 60 are now offered surplus to requirements. They are well grown for their age and exhibit all the quality traits the breed desires. They would be equally suited to go into any breeding program or grow out to heavier weights. They carry a clean bill of health and stand in fresh forward store to slightly forward condition.
