Quiet: 44 head

Quiet: 42 head

Temperament not assessed in

Slightly Stirry: 2 head

Paddock

Heifers were very easy to handle through the assessment process. Having been yard weaned and handled with low stress these heifers didn't present any temperament issues whatsoever.

Vehicles

Notable Traits	Traits
	13 Head ringworm
	1 Head white birth mark

Assessor Comments	A good line of Angus heifers that present in forward store condition and on a rising plain of nutrition having gained 1.1kg/day over the past month. Heifers are bred from quality large frame cows with the vendor having invested heavily in purchasing females from quality local herds in the past. Vendor purchases top end Bannaby and Shacorrahdalu bulls with an empasis on high 200/400 day weight, IMF & EMA. Quality heifers that will hit joinable weights later in the spring if given the right nutrition or could equally suit a backgrounding or feeding operation. Note there is small ringworm present in mob but is clearing up now heading into spring.
