Assessor Comments	NSM Angus X Angus heifers that are easy doing, soft in the coat and quiet to handle. They are of Te Mania, Millah Murrah, Bongongo and Onslow heritage. 100% have been weighed 273kg plus after a 2 hour curfew to present a line of heifers ready for an immediate joining to the sire of your choosing. They are currently gaining an average of +1kg/hd/day on quality spring growth and really hitting their straps. They were comfortable with human interaction having been properly weaned and they have settled properly for photos and a video following assessing presenting quiet in the yards. Approx 15 hd are not vendor bred purchased locally as one mark breeders heifers and blend in perfectly. The vendor bred heifers represent the tops of the drop - small tail removed. Health treatments are up to date and they are 100% grass fed and antibiotic free, presenting suitable to feeding or future breeding. Winter coats are just starting to clean up.
