| | Very quiet, well mannered bucket reared calves, easy to handle in every manner. Brought up the race individually to stand on the scales. A couple of heifers showed some anxiety on the scales with a small amount of stomping and weaving, not enough to merit being called anything other than quiet. Very placid calves that could be handled by a stockman of any experience. | | |

| Assessor Comments | Bright, lively young calves that are in optimal health. Heifers that are the proper article - vendor bred, out of enormous big Holstein Cows, by selected imported semen and Table Top Angus mop up sires. Nice line of heifers to take on knowing they have been given the best start possible in life, with no shortcuts taken throughout their development. Currently going forward on pastures with access to a custom grain mix and pasture hay, Given the right opportunity, these heifers will do every day heading in to the warmer months and make a lovely vealer mother down the track. |
