Assessor Comments	A neat line of Angus infused crossbred heifers, they are in good forward store condition. These weaners were taken off the cow the day before assessment and will be kept and handled in the yards until delivery. They are good soft cattle with an average weight of 231kg, they would be ideal to be backgrounded up to heavier weights and would be suitable for a wide range of feedlot markets or could be taken through to future breeders. (Please note vendor has 2 other lots in the same sale).
