Assessor Comments	Quality Tablelands Angus bred heifers containing Gilmandyke, Karoo and Bannaby blood. These heoifers were purchased from store sales early in 2024 from CTLX carcoar for vendor to retain breeders from. All heifers were preg tested in June empty so as a joining and classing process could take place and these heifers are surplus to the vendors requirements. Heifers had been running on a oat crop for 3 weeks prior to assessment and are not running on improved pastures. they would suit a trade supermarket job or are ready to join to a bull of your choice.
