Assessor Comments: On offer 93 VGQ Angus Steers 11-13 months old. Weighing 301 - 433 kgs to avg 370 kgs at assessment with overnight curfew. Majority are Vendor bred Steers coming out of the Gates performance genetics large frame herd. % purchased ex Tamworth weaner sales by the vendor and selected on similar traits of own herd to fill agistment paddock up originally. Presenting in forward store condition with plenty of room to do quickly having grown out over the winter. Steers would be ideal to take home put onto grass or crop and take through to feeders or even the grass kill markets. Steers were enjoyable to handle and quiet by nature.
