Assessor Comments	On offer 93 VGQ Angus Steers 11-13 months old. Weighing 301 - 444 kgs to avg 370 kgs at assessment with overnight curfew. Forward Store condition steers showing feeder steer frame and presence. Vendor owns and operates Gates Performance Genetics Stud in the New England Armidale area and has properties in the Western Districts of Victoria. These steers were carefully selected and purchased from renowned WD Vic herds by the vendor and selected on similar traits of their own herd to fill agistment paddock originally. Pathfinder and Chiltern Park bloodlines. Steers are starting to clean up in the coat with plenty of room to do quickly having grown out over the winter. Steers would be ideal to take home put onto grass or crop and take through to feeders or even the grass kill markets. Steers were enjoyable to handle and quiet by nature.
