Really good steers to handle, flowed well through the yards. only a couple became stirry in crush but settled quickly

Handled With: Bikes , Dogs , On foot , Vehicles

Assessor Comments: A line of pure Devon steers that are on the do. These steers were inspected a month ago after coming out of a native timbered paddock and since then have been moved onto a lucerne and clover paddock and really have punched along. these steers really have softened since last inspection. The Kuntze family have been breeding Devon cattle for decades

	with the herds base of Lewisham blood with the introduction Vix bulls of the last few years. These steers handle well and really are just hitting there straps. One steer with cloudy eye but not detrimental. Please note older brothers in same sale.
