Assessor Comments	Very well bred line of NSM EU accredited Angus heifers. Heifers are well grown for their age and represent the second line of a large group of females. They are bred from a well regarded local Rennylea herd where the vendor annually sources their genetics in the top 40% of the catalogue annually along with utilisation of an AI program each year. Heifers present evenly as a group and are really starting to respond well with the warmer weather. Given the opportunity they will mature into genuine larger frame types. Vendor focusses on calving ease, growth along with IMF when selecting their sires.
