The Steers had a tendency to run when first put into the yards. Two reacted under pressure not wanting to take you on just

	get out of the way in a hurry. They have had limited handling this year, they were run in the hills after weaning and on the wrong side of the creek. The 1st time they have been in the yards since weaning was for this assessment .They did start to settle after a while in the yards and would benefit from further handling. They have been worked with dogs.
Handled With	Bikes , Dogs , On foot , Vehicles
Assessor Comments	Very well bred Poll Hereford steers that are going forward and will finish on grain or grass quickly. They have the bone and conformation to put on a lot of weight. The Steers have been bred on pure Onslow bloodlines for many years and more recently Kidman bulls have been purchased.
