Assessor Comments	NSM Angus heifers by sons of Texas Iceman. These young heifers are ideal to take on and fatten through the spring or have the breeding to keep and join for replacement heifer. They have been putting on 1.5kg a day on native pasture and given the appropriate protein and management should continue to do so. They were purchased on A Plus from the Gloucester district to join and keep but with more home breed cattle coming on these heifers are for sale.. All heifers have and a NEGATIVE PESTIVIRUS test for anyone wanting to retain them in the herd. Please call for any further information.
