	Quiet: 28 head		Quiet: 23 head Slightly Stirry: 5 head		Temperament not assessed in Paddock
	Very quiet young females, that were all very well behaved throughout the assessment, led up the race quietly, all stood sensibly on the crush, and exited at a walk, just a few heifers (5) that were a bit anxious in the crush, doing some stomping				

and weaving. Very quiet to share the yards with for photographing, no rushing through any gateways or showing any signs of anxiety in the yards. A pleasure to handle, and a real credit to the vendor.

Assessor Comments

Pure Ardenside* Angus Blood Heifers (*40 years of pure Te Mania genetics) Heifers are long bodied, out of large framed cows, and should mature to be good, large framed, proper females. Bred for ease of calving, correct structure & 600 day growth. Heifers with a real stand out temperament that were a pleasure to share the yards with, and with some more time to mature, would make a lovely line of breeders. Alternatively, Heifers are well grown with plenty of frame and offer good compensatory weight gain opportunity, and would be ideal to continue on grass, or start on a feed ration & make a Spring feeder body. Buyers please Note. Vendor has another lot of the lighter sister in the same sale, as well as a lot of the Autumn drop sisters (6 months older) and a lot of Autumn drop steers.
