Handled With	Bikes , On foot , Vehicles

Notable Traits

	Traits
2 Head	Very slight white on udder of 2 cows

Assessor Comments	A nice line of one-mark, large-framed, mature aged Angus cow & calf units. These cows are bred from a herd which is based on COFFIN CREEK ANGUS bloodlines, & are displaying great frame and quiet temperaments. They are presenting in prime condition, and have maintained a tidy udder throughout multiple drops of calves. The quality of the young calves is evident, & these fresh calves at foot are reaping the benefits of the maternal traits & abundant milk these cows are producing, & they should really hit their straps coming into the warmer months of Spring. Cows have been running continuously with the TeMania Angus bulls since calving, however continued joining would be advisable due to the young age of the calves. A great opportunity to secure quality proven breeders with the constitution & freshness of mouth to ensure further production still ahead them. Vendor has another line of 17 x 17 top quality first calvers, with similar aged Angus calves at foot, also offered in the same sale.
