Assessor Comments	A nice line of quiet tempered, Angus cow & calf units, on their first calf. Heifers are developing well, exhibiting good to moderate frame & producing plenty of milk, which is evident in the sappy TeMania Angus sired calves at foot. These heifers have been running continuously back with the TeMania Angus bulls since calving, however continued joining would be advisable due to the young age of the calves. Presenting in store to forward store condition, with signs of a little rub, these heifers are just starting to clean up in the coat would benefit from a backline. A great opportunity to secure quality young breeders which have calved easily & unassisted, with top quality Angus calves at foot & a lifetime of production ahead of them.1 heavier calf born earlier than the rest. Vendor is offering the right to the buyer to leave the Black Baldy cow & her calf out, if desired. Vendor also has 14 x 14 mature-aged Angus Cows & Calves offered in the same sale, with similar aged calves at foot.
