Assessor Comments	Here presents a small line of quality Waratah Speckle Park blood PTIC cows that are joined to a low birth weight Angus bull. Cattle average 564kg at assessment and were a pleasure to handle in the yards & paddock. These cows have had good weaners pulled off them 2 weeks ago and are just in the process of drying up in the udder and a filling back out again on crop & hay. All the hard work is done with this mob, being recently vaccinated and drenched. Cows have never missed a beat joining up every year. Ideal cattle to take on as vealer producers or replacement breeders. Only for sale due to a change in breeding program.
