Overall these females were good to handle. A couple of females were unsettled when separated from their calves, but once returned to their calves they settled. These females have been educated to move when pressure is applied but also settle when the pressure is off.

Handled With: Bikes , Vehicles

Notable Traits

	Traits
1 Head	Rubbing marks on neck

Assessor Comments: Quality line of NSM Angus Heifers with calves at foot. These first-time mothers are doing an excellent job on raising their freshly born calves. Calves at foot are sired by high indexing sire Shacorrahdalu Paratrooper S14 - APB21S14 (see attached EBV). Ranging from 30kgs to 43kgs to Average 37kgs at 1 to 2 weeks of age with 6 males & 5 females (calves are unmarked). All females calved unassisted. These females are extremely well-bred Angus cattle being purchased as PTIC heifers in February 2024 from the well-known herd of JA Crawford “Galimbang” Yaven Creek, Adelong. These females will mature into highly productive breeders which will offer great genetic gain for the purchaser running a self-replacing herd. Excellent opportunity to secure quality Angus heifers & calves which would be an asset to any herd. Cattle come recommended!
