|                               | These cows have received ample human interaction. Quiet when viewing them in a vehicle. Odd cow was a bit pushy at trucking but in no way threatening and settled with pressure released.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |                                   |                                           |

| Assessor Comments             | 3 yr old one mark Te Mania based Angus cows with Angus calves at foot. Cows were purchased as a complete drop of weaners direct the breeder and have just had their second calf. All conceived in the first 6 weeks of joining for their first and second calf. Calves are presenting fresh to 6 weeks old, healthy and sappy. They are unmarked and were sired by large framed Yandilla Angus bulls(Te Mania and Millah Murrah genetics, bred in central west NSW). Cows have big bags of milk are in the prime of their lives and have not had access to bulls. Cow herd is based on Te Mania genetics sourced via AI over selected cows with bulls retained. Emperor genetics used extensively. They are grazing top quality plains flood country and have turned inside out since arriving on agistment. They are being offered with a delayed delivery to allow the younger calves some more time to mature. Only being sold due to agistment coming to an end. Highly recommended top quality young herd improver cows and calves. |                                   |                                           |
