As in the video the cow are nice and easy to handle in the yards. 3 Cows didn't like standing on the scales

Handled With	Bikes , Dogs , Horses , On foot , Vehicles
Assessor Comments	An outstanding line of young Angus/Santa cross cows that have there 2nd calf at foot. They are great to handle in the yards and would be a welcome addition to someones cattle operation. They all have a calf at foot (one cow has twins) to Mandayan Black Limousin Bulls. They would do well in any district, but would thrive in a northern climate. They are doing a great job mothering and feeding their calves, and as the calves become more developed you can see the Limo traits starting to show. As you can see in the videos and pictures. The cattle are being sold due the property is to be leased.
