Assessor Comments	Complete dispersal of the Bowler Charolais cows and calves. This herd has been classed heavily on fertility and temperament and these cows were a pleasure to handle. 2-7 year old consisting of 1 head - blue tag 2023 drop, 10 hd - red tag 2022 drop, 7 hd - yellow tag 2021, 6 hd - purple tag 2020, 6 hd - green tag 2019, 13 hd - orange tag 2018, 6 hd - white tag 2017 drop (mouthed sound - one spreading). Generally speaking the lighter body weight cows are the younger mothers. Calves at foot average 91kg and sired by Charolais, Red Angus and Speckle Park (bull ID's supplied). 2 head calves eyes were treated at assessment with Orbenin cream. Cows and calves were drenched and vaccinated on the 01/09 and calves were marked (2 bull calves will be marked at delivery). Young cows offering years of production NSM ready for the bull of your choice. They offer substantial compensatory weight gains given a change in diet. Ideal for a trade or to retain as breeders - realistically reserved.
