These were a pleasure to handle through the yards, a small percentage did resent being mouthed but settled quickly once back in the mob.

Assessor Comments	Buyers please see a line of soft flatback feeder steers for your competition. These steers present in store condition but average daily gains would suggest they are just starting to do after the recent rain event. Please note a percentage of steers did have some horn regrowth ranging from very minimal to some larger regrowth. They were all mouthed 0-2 tooth at assessment. Buyers please note whilst the vendor isn't guaranteeing them scratched clean he is guaranteeing them visually clean at time of pick up on farm, making them eligible to enter a registered feedlot. Clearing to none feedlot destinations will remain the purchasers responsibility.
