Assessor Comments	Here presents a line of Angus x Angus weaned steers. These steers were purchased from the New England and Southern Weaner sales. When purchasing these steers, we always ensured we purchased the best-bred calves from sales we attended. Steers present in forward store condition and are really on the do, averaging around 1kg per day on current optiweigh data. These steers would be ideal cattle to take onto domestic or export markets. Vendor has given these steers every opportunity with health treatments and steers are now ready to go on and do a job for the successful purchaser. A portion of Steers carry Ringworm, please see attached photos and videos. Buyers, please note four steers carry old pinkeye scarring but doesn't affect them in any way. Buyers please also note odd steer carries small white on and around cod. Vendor offering 160 steers in 2 lots in same sale as a 'run out the gate' offering, we will ensure to deliver steers as even as possible.
