Assessor Comments	On offer by the Christie family of "Corona stn" is a neat 4 deck line of Dohne/Merino ewe lambs. This line is made up of 480 M/J drop bare shorn lambs with a weight range of 30-62kg to average 42kg after a long curfew and being around the yards for 2+ days. These lambs are showing good weight gain and growth for age, M&TS, bare shorn, treated with Encore blowfly and lice and have benefitted from favorable conditions in the far west. Put these lambs on fresh feed and watch them grow out to a nice line of ewes to join to the ram of your choice. Alternatively being fresh off shears and with weight and time on their side could also fit into any fattening program to target trade or heavier markets with ease. Growing a nice cut of wool in the process. *Note- Vendor is also offering 2200 unshorn wether lambs in todays sale.
