Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
Assessor Comments	Buyers, on offer is a very well bred line of 315 2nd Cross Feeder Lambs. Lambs are sired by Gooramma and Springwaters rams. Rams are annually selected on natural shape, length and IMF data. These lambs exhibit all the characteristics of quality breeding and are showing excellent shape and bone. Traditionally, these lambs are grown out to meet supermarket and export weights. Lambs have been weaned for 9 weeks and are trained to grain, currently running on pasture with supplementary grain (barley) feeders. These lambs were all individually weighed into a tight weight range above 32kg up to 42kg at assessment to averaged 37.9kg. These lambs come with my highest recommendation and the successful purchaser will not be disappointed. Please note, all lambs will be delivered with a market crutch.
