Any Access To Rams or Stags?	To vendor's best knowledge, the female portion of this lot has had no access to rams or stags.			
Assessor Comments	Well bred line of weaned store lambs. This group of 250 represents a tight weight range as part of a large group of 1400 lambs with the tops and the tail retained on farm. They are bred from large frame productive Primeline flock with progeny proven performers across all markets. Vendor generally finishes majority of their lambs for trade and export markets and lambs will perform the same way if given the opportunity. Lambs come from a well managed operation and carry a clean bill of health. Please call for further information.
