Assessor Comments	Fresh xb suckers, weaned at assessment and still holding their tight sucker skins. These lambs have done very well for their age and show it in their size and good energy. Vendor has kept these lambs in a very tight weight group for ease in feeding on for kill later. Bred from high end Ulandi North white suffolks over large frame Gumhill ewes, under the right management these lambs will continue to grow on into heavy kill lambs later in the year.
