Assessor Comments	Good quality line of 133 shorn 1st cross COMP/MO with lambs bred out of med-large framed Old Ashrose BLD MO ewes, sired by high index KIRANDA bld composite rams. Average 34.7kgs, range 28-46kgs.. The complete drop of Comp/Mo with lms with the tail taken off. These lambs have plenty of potential, are fresh, very young so have plenty of time to grow out into export weights given the right feed and conditions. Very even line, vendor only selling as feed required for ewe portion of lms. Have been introduced to barley & lick feeders. In the line there is a few with scurs. Are priced to sell.
