Assessor Comments	Very good quality line of future breeders! Top 40% of the 2024 drop, bred from very fertile Mundadoo MPM ewes ex Mundadoo and sired by Gleneith and Retallack rams. Don't miss this opportunity to secure some very well bred and grown prime lamb factories of the future. with an average body weight of 50kg the window is wide open to join these ewe lambs and have them lamb out on their first birthday. Mundadoo MPM stud and commercial flock are very well known for their fertility, growth, bare breach (non mulsed) and doability. Sires of these ewes have set them up to be very productive from an early age having been bred from stud sires selected for High PWT and good fats EBV's. 1 other lot also available in this sale offered by the same vendor of 475 similar purchased in ewe lambs ex Schwager family, may suit for freight accumulation.
