Pregnancy Terms				
Other Joining Details	Rams were still running with ewes until scanning so high chance many ewes are pregnant but were too early to detect at scanning.			
Assessor Comments	Prime lamb breeders, here is a good opportunity to secure breeding ewes in the prime of their productive lives. Ewes are 3 years old (2021 drop, yellow tag) and have been running with Poll Dorset rams. Ewes have been scanned undetectable at scanning, but rams were still running with the ewes until the date of scanning, so it is highly likely many ewes are pregnant but were too early to detect at scanning. All ewes are proven breeders, having been scanned with 100% twins for their last lambing.
