Assessor Comments	Offering on behalf of Heinrich Ag is a line of 220 mixed age 1st X Ewes. Line consists of 115 2yo Ewes and 105 3yo ewes. This line of large framed ewes presents in forward store condition averaging 67.3kg at assessment and are improving very quickly having just been shorn and had lambs weaned. They are bred out of Gunallo BLD Poll Merino Ewes by Paxton BLD Border rams and have been a proven line of breeders weaning 145% lambs in what has been a very tough season. They are OJD vaccinated and are only being sold due to the vendor deciding to go out of running breeding ewes to focus more on the store market. A great opportunity to secure a line of quality, proven breeding ewes in the prime of their lives to take into any prime lamb operation.
